Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each M

Phase of Journey	Stage 1 (Awareness & Registration)	Stage 2 (Assessment&Tracking)	Stage 3 (Results&Improvement)
Actions <i>What does the customer do?</i>	• Learns about the app. • Registers/Logins. • Creates Profile.	The Assessment & Tracking stage continuously monitors the Electric Vehicle's battery performance and charging activities. It analyzes battery charge level, estimated driving range, energy consumption, and charging efficiency while tracking	• Views well-being score. • Follows recommendations. • Monitors progress regularly.
Touchpoint <i>What part of the service do they interact with?</i>	• Website/App. • Registration page. • Email/OTP.	real-time battery status, charging history, travel distance, and nearby charging station availability.	• Results dashboard. • Reports. • Notifications & Taps.
Customer Thought <i>What is the customer thinking?</i>	• Will my battery last until I reach my destination? • ⚡ Where is the nearest available charging station?	• Is the battery range prediction accurate? • 🗺️ Which route is best for my current battery level?	• How can I improve my EV battery efficiency? • 📱 Is my vehicle and charging data secure?

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Hopeful	• Interested • Engaged	• Motivated • Satisfied
Process Ownership <i>Who is in the lead on this?</i>	• Registration Team • System Admin	• Assessment Module • Data processing Team	• Analytics Team • Support Team
Opportunities <i>How can we improve this stage?</i>	• Simplify sign-up process • Provide clear instructions	• Reduce assessment time • Add progress indicators	• Personalized recommendations • Regular reminders & goal tracking
