Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity (User / Admin)	User provides well-being information and receives reports. Admin monitors and manages the system.
Rectangle with numbered header	Process – 1 (Registration & Login)	Validates user details and allows secure access to the system.
Rectangle with numbered header	Process – 2 (Well-Being Assessment)	Collects health, lifestyle, and wellness data from users.
Rectangle with numbered header	Process – 3 (Generate Well-Being Report)	Analyzes collected data and generates well-being scores and recommendations.
Rectangle (solid fill, no number)	Data Store (UserDatabase)	Stores user profile and login information.

Rectangle (solid fill, no number)	Data Store (Assessment Database)	Stores assessment responses, scores, and wellness records.
Labeled arrow	Data Flow	Transfers registration details, assessment data, reports, and recommendations between entities, processes, and databases.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram
