Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing and indentation are maintained throughout the code.	YES	Code is properly formatted.
2	Proper File Structure	Files and folders are logically organized for better maintainability.	YES	Project follows a modular folder structure.
3	Meaningful Variable Names	Variables are named clearly to reflect their purpose.	YES	Easy to understand and maintain.
4	Function / Method Names	Functions are descriptively named based on their functionality.	YES	Improves code readability.
5	Code Comments	Important sections include comments explaining the logic.	YES	Comments added where necessary.
6	Modular Design	Code is split into reusable functions/modules.	YES	Separate modules for UI , ML model, and utilities.
7	No Redundant Code	Duplicate or unused code has been removed.	YES	Code is optimized without unnecessary duplication.
8	Error Handling	Exceptions and input validation are handled appropriately.	PARTIAL	Basic Input validation and exception handling implemented.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Login Module	Flask, Python	User Authentication	High
2	Well-being Assessment	Python	Health Score Prediction	High
3	Data Processing	Pandas	Data Cleaning & Analysis	High
4	Visualization Module	Matplotlib	Dashboard & Reports	Medium
5	Database Module	SQLite/MySQL	Store User Data	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well organized project structure.
Readability	5	Easy to understand and maintain.
Reusability	5	Modules reused across the project.
Documentation / Comments	4	Sufficient comments provided.
Overall Score	5	Good quality, maintainable code.
